Buffets

This type of furniture is useful in so many ways. They can be used as book cases, storage cabinets in dining rooms or living rooms. One person we know uses a very large buffet to hold all their childrens' toys! Buffets are often used in offices, or in reception areas. Again, they come in a variety of lengths, some with paint decorated doors and some refinished. Utility and beauty combined into one.

First Elm Buffet

\$1,895
