Tall Tapered Leg Cabinet

\$8,495

Someone invested a lot of energy into saving this cabinet. Look at the beautifully matched door panels, the beautiful molding and elegant proportions of this cabinet. Blessedly the doors and the posts of the cabinet were relatively undamaged. The back and the interior shelves have been replaced. The hardware is also replaced. Well worth saving, this is a fine example of a marvelous piece of furniture rescued from the ash heap of history. The matched grain of the Yumu doors and the simple grace of the proportions make this a highly desirable example of country furniture
