### Pair of Lacquer Painted Windows

\$2,500

Red, gold, and black lacquer painted windows with flower (plum blossom) surrounded by ruyi heads in the center medallion. The auspicious flower and ruyi head motif predominates with the ingot - a symbol of high achievement in the government, also adding to the harmonious whole. There is significant color variation between the two panels. This indicates that one panel was exposed to light with greater intensity than the other.

Wood: Camphor
