Chinese Antique Furniture

Intricately Carved Window

\$1,500

There is intricate raised carving in this single window. It has a pomegranate medallion circling two figures - most probably characters from Chinese opera. Dragons, phoenix, chilin, deer, and a monkey underneath a peach tree combine to create one window filled with many different auspicious symbols. (Dragon - protection, phoenix - peace, chilin - fertility, deer, monkey and peach tree - longevity).

Wood: Camphor
